Transformative Learning: Promises and Challenges

Come join an interactive presentation that introduces transformative learning theory (TL) and the implications it has for teaching in formal settings. Reflect and share your own transformations as Prof. Taylor and Prof. Fedeli explore the meaning of these transformations through the theory of transformative learning.

The second part of the 3 hour presentation shares with the audience research on fostering transformative learning in the formal educational settings and the promises and challenges associated with this approach to teaching.

Herzliche Einladung zum öffentlichen Workshop!
